STRONGER TOGETHER

CONGRESS

**Irish Congress of Trade Unions
Northern Ireland Committee**

Following the announcement of the siting of the G8 summit in Fermanagh, a range of civil society organisations have come together to organise a major march and rally, as well as a 'Fairer World Festival', to challenge the agenda of the G8 leaders. A statement of principle is below.

The committee, hosted by the Northern Ireland Committee of the Irish Congress of Trade Unions, comprises trade unions, trades councils, and campaigning groups such as Amnesty International and Friends of the Earth. The committee supports and works with the IF campaign, who will be also participating in the march.

G8 2013: time for a fairer world

Civil society organisations have come together to offer people an opportunity to challenge the policies and priorities of the G8 leaders who meet in Northern Ireland in June 2013.

Our organisations represent many different interests but we are united in a commitment to the creation of a world that is fair and just for all.

We believe that achieving social, economic and environmental justice must be central to political decision-making.

This festival of events to coincide with the G8 summit, including a major public demonstration in Belfast, is our call for a fairer world. Please join us.

WHO ARE WE?

We are trade unionists, environmentalists and human rights campaigners living and working in Northern Ireland, and we are joining with the millions of people around the world who are opposed to the policies and practices of the global great powers gathering in Fermanagh at the G8 summit on 17/18th June 2013.

We are the Northern Ireland Committee of the Irish Congress of Trade Unions, Amnesty International, Friends of the Earth and other campaigning and development groups.

We are supporters of the IF Campaign of development organisations, and we urge everyone reading this to sign up to their online petition on www.enoughfoodif.org

We represent all political traditions and none, but we do not include political parties with this programme of events.

We intend to provoke informed debate on the issues raised by the presence of the G8.

You must be part of this debate. Join in.

As part of the week of events to celebrate an alternative G8 we are delighted to bring to you an evening of amazing positivity.

"How do we turn this incredible global economic collapse and ongoing global ecological disaster into the greatest love story ever known?" **Occupy Love!**

The movie will be introduced by the Director Velcrow Ripper. After the screening we'll host an open discussion with Velcrow and you based on compassion for each other and this planet we call home. Who knows what form it will take. I hear rumours of poetry, music and singing so bring your compassion and your inspiration.

Much love!

Please note the venue is limited to 100 people. Also we'd appreciate a £5 donation to cover our costs which including bringing Velcrow over for the screening. We'll also host the premiere in the Irish Republic the following evening in Dublin which Velcrow will attend and Velcrow will also give a workshop in Dublin on the Friday 14th June also. X

"This is not a film. It's a rehearsal for revolution" Film International.

A film inspired by Engels' book, *The Condition of the Working Class*, written in 1844. How much has really changed since then? It is full of political passion and anger, a wonderful testament to the creativity, determination and camaraderie of working people that blows the media stereotypes of the working class out of the water.

"If you want to see how, fundamentally, the way people see and treat each other in Britain has not changed in over 160 years watch this film. Some things have changed. People have sewers now, £9 JSA a day, are taught to read, but not really to write or speak. We still look up and down at each other in ways we did then, betray ourselves through our accents, our dress, our work – if we can get a job." Fracking (or hydraulic fracturing) is a controversial new process of extracting gas from rock formations under the ground. The process requires drilling horizontal wells and injecting an average of 5.5 million gallons of chemicals at extremely high pressure. The process has resulted in major incidents of contamination in locations where it has taken place and there are very real concerns that it is resulting in a public health crisis, including higher incidents of cancer among local populations.

4 gas exploration licences have been granted to companies in Northern Ireland. One company has stated its definitive intention to use fracking and drill up to 9,000 wells across Fermanagh and Leitrim. The Department of Enterprise have stated that it intends to issue a further licence covering Lough Neagh, Belfast and North Down.

Objective of the Workshop

The aim of this workshop will be to inform you about the dangers of this process, the situation in Northern Ireland and provide information on how you can take action to help to campaign for a global ban on fracking!

"Capitalism has failed. Almost half the globe lives on less than \$2.50 a day. Worldwide, 1 in every 2 children lives in poverty. 22,000 children die every day because of poverty. Surely we can do better than this?"

In the opening rally of the weekend, the case will be made for an alternative. Trade union leaders and politicians from across Ireland and Britain will detail what they see as the alternatives to the current failed model of neoliberalism.

Speakers: Bill GreenShields - The Peoples Assembly; John Douglas - Mandate; Dave Ward - CWU Clare Daly TD; Brian Campfield - NIPSA; Patricia McKeown - Unison

The debate will be followed by live music from Mel Corry singing protest and labour tunes. Don't miss out on a lively night out to get the festival kicked off in style.

George Galloway is the Respect Party MP for Bradford West. He has also been the MP for Bethnal Green and Bow and before that Glasgow Kelvin and Glasgow Hillhead. George is the Nominating Officer for the Respect Party and founder of the Viva Palestina convoys. The youngest ever Scottish Chairman of the Labour Party, Galloway was expelled over his opposition to the invasion of Iraq and went on to become the only person ever to have defeated a sitting Labour Party MP from the left, indeed he has managed it twice. His 36% swing from Labour in the Bradford by-election was the third-largest in modern British political history.

Notorious for having the gift of the Glasgow gab George famously seized the opportunity provided by a summons to the US Senate in 2005 to attack his inquisitors describing Senator Norm Coleman as a "pro-war, neo-con hawk and the lickspittle of George W. Bush".

An international conference, organized by the Pat Finucane Centre and the Bloody Sunday Trust, explores how post conflict societies can deal with the "poisonous legacies" of their colonial or war torn past.

The conference takes place on 14th-15th June in the Guildhall in Derry, deliberately chosen to mark the date and location where the families of those killed at Bloody Sunday received their first glimpse at the Saville report in 2010.

Over the two days, academics, journalists and activists from Ireland, Britain, Spain, Columbia, Argentina, Italy, Israel, Russia and elsewhere will share and exchange ideas.

A spectacular music event, The Big IF Belfast, will be held in Belfast's Botanic Gardens on Saturday 15 June from 2pm to 5.30pm, to give local people the chance to show solidarity with the world's poor and demand change from G8 leaders.

Organised by the 'Enough Food For Everyone IF' campaign in NI, the event promises an eclectic mix of music and entertainment, featuring the Ulster Orchestra, Flash Harry, SOAK, David C. Clements, the Belfast Community Gospel Choir and actor Richard Dormer, with more headliners to be announced.

The Big IF Belfast will be a fun, family event albeit with a serious underlying message. People want the opportunity to make their voices heard in a positive and dignified way so that the leaders attending the G8 Summit will be in no doubt that justice for the world's poor must be top of the agenda in Fermanagh.

Political activist, prolific writer and historian, Tariq Ali has analysed Barack Obama's presidency in his book, *The Obama Syndrome*, by reminding us that the reasons we loathed Bush - the 'War on Terror', torture in Bagram, occupation in Iraq, appeasement in Israel, and escalation in Pakistan – persist under Obama.

Back in the 1960s, with the Vietnam War at its height, Tariq Ali earned a national reputation through debates with figures like Henry Kissinger. He protested against the Vietnam War, led the now-infamous march on the American embassy in London in 1968 (allegedly inspiring the Rolling Stones song "Street Fighting Man") and edited the revolutionary paper *Black Dwarf*, where he became friends with numerous influential figures, such as Stokely Carmichael, Malcolm X, John Lennon and Yoko Ono. Forty years later, Tariq Ali continues his lifelong struggle against US foreign policy across the globe.

We aim to explain how the colonial ambitions of Britain and the US in the Middle East led to a massive betrayal of the Palestinian people – a betrayal which has led to ethnic cleansing, to the world's largest refugee population and to the near destruction of the Palestinian economy. Meanwhile, the settler-colonial state of Israel continues to be rewarded by US and EU patronage, despite its policy of apartheid and continued theft of Palestinian land. We will explain the effort of the solidarity movement to counter this injustice through a campaign of Boycott, Divestment and Sanctions, such as was used against South Africa, until Israel obeys international law.

A year since Vladimir Putin's return as President of the Russian Federation, the space for political opposition and dissent is rapidly shrinking.

Last year's arrest and conviction of Pussy Riot members under the dubious charge of "hooliganism on the grounds of religious hatred" signalled a fresh and severe clampdown on human rights in the country. Since then Russia has adopted sweeping new laws to clamp down on NGOs, human rights and political activists in Russia and go against the country's international human rights obligations.

President Putin needs to show a commitment to upholding human rights and must stop peddling the disingenuous line that civil liberties and political stability are incompatible in Russia. Amnesty International will be taking to the streets to challenge President Putin to fulfil Russia's obligations to respect international law.

Diaz: Don't Clean Up This Blood, is a drama directed by Daniele Vicari, recounting the violent end to the 2001 G8 summit in Genoa, which left one anti-globalization protestor dead.

It focuses on the final days of the 2001 G8 summit, when police stormed Armando Diaz, a school in Genoa being used as a protest headquarters. In the nighttime raid, over 300 police officers attacked activists and journalists, seriously injuring 93 and putting another 3 in a coma.

The film received the Berlin International Film Festival's second place audience award, and won three Nastri d'Argento, Italy's oldest film awards.

The screening, it's Northern Ireland premiere, will be followed by a talk and Q&A with Amnesty International's NI programme director, Patrick Corrigan and journalist Mark Covell who was left with eight broken ribs, smashed teeth and a shredded lung after he was assaulted by police in Genoa.
